

# Rakesh Gopathi

## Android Developer

I am an Android developer with experience of over 2 years. I would like to think of myself as a Passionate and Persistent human being who is eager to learn, loves solving problems and building things. Most of my time goes towards these activities or for entertainment. I am a believer that anything is possible when you put in your mind and effort towards something. I built multiple applications over the years both professionally and for personal use.
